

New York City Energy Efficiency Corporation

Green Predevelopment Loan Fund Term Sheet

The following Term Sheet is provided for convenience only and does not constitute a commitment to lend or borrow or an agreement to issue or accept a commitment on these or any other terms and shall not create a binding or legally enforceable obligation on the New York City Energy Efficiency Corporation (NYCEEC) or any other party in any way. The terms contained herein are of a summary nature and are not all-inclusive.

Summary: New York City Department of Housing Preservation & Development (HPD) administers [multiple financing programs](#) to facilitate the physical and financial sustainability and affordability of privately-owned multifamily buildings and City-owned multifamily buildings that will be transferred to private ownership. An Integrated Physical Needs Assessment (IPNA), which integrates energy and water audit protocols into a full roof-to-basement physical needs assessment, is required for many HPD preservation programs. Buildings also enter into a regulatory agreement with HPD.

In response to the potential need for owners to access funds prior to construction loan closing, to assist owners in meeting the energy and environmental goals of New York City’s Climate Mobilization Act, and to facilitate participation in eligible HPD programs, NYCEEC has established the **Green Predevelopment Loan Fund** (the Fund), which addresses this market gap.
